TIC TAC TOE

1. Packages required and how to install them

Pygame:
   pip install pygame
Tkinter

2. How to get started (Command Prompt)

python tic_tac_toe.py

3. Features

- The GUI which were used for our python project are pygame and tkinter
- First we have made a window to ask players for their name using tkinter
- There 'X' is assigned to Player-1 and 'O' is assigned to Player-2
- By clicking on 'Play Game' button the players will automatically be directed to the actual game
- Next we have made a window using pygame to implement tic tac toe game
- The players has to play the game in turns according to the name displayed at the bottom of the game
- This game will continue to reset itself until the player exits the game

4. Input/Output

Tic Tac Toe

Player - 1

Player - 2

Play Game

Tic Tac Toe

Player - 1

Tulsi

Player - 2

Vinit
